B220 - A Good Choice All Around

In addition to helping you reduce your carbon footprint, following are a few more reasons PrintheadSaver® B220 resin enhanced wax ribbons are a good choice all around:

- B220 has received recognition and authorization for use in **fresh fruit, produce and food contact label applications** that may or will have direct food contact.
- Yields excellent results on a broad range of media.
- B220 resin enhanced wax is an economical solution for most general use bar code labeling applications.
- Can help support your sustainability initiatives within your business.
- Keeps your printheads clean from the start of each roll to the finish.
